SAC Meeting 4
May 13, 2026

Attendees: Grandison, Mrs. Powdar, Rudolph, Mrs. T. Williams

- Meeting was called to order at 3:33
- We need to always have printed copies of SAC meeting minutes in office along with IAC meeting minutes
- We need attendance sheets going forward in the binder
- Old Business
    - Reviewed our last meeting minutes
- New Business
    - PBIS
        - We are awaiting direction from leadership
        - Classrooms should still have behavior management plans
    - Read Across America Week
        - Went well
        - Lots of community involvement
        - March 1-5
    - Literacy Night
        - Ideally, next year we will have this occur the same week as Read Across America
        - We can use the same plan next year
        - Can calendar this earlier in the year during planning for 2027-2028
    - STEM Night
        - We held our first STEM night
        - Parents can be there to help
        - Science Fair Projects turned well and worked as a station for this event
            - Fourth can be included in this next year
            - We will reach out to the Exchange to have project boards as merchandise for next year
    - Robotics
        - We are hoping to implement this as an EDA
        - Aligns to STEM and prepares for STEMPosium
    - Intervention
        - This has ended
        - We will conduct data analysis once DCAS scores have been reported to see if this was effective
    - Month of Military Child
        - Having a committee was a highlight and a practice we want to continue next year
    - Student Council

        - Will make a presentation at BLT tomorrow for behavior recommendations and to involve students in decision making
        - Can current SC make a video of the school to welcome new students?
    - DCAS Testing
        - We are starting to see data reported, but we are waiting for more
- Red Cross
    - Willing to CPR train teachers at the school
    - Will survey teachers' interest
- Events for Next Year/EDAs
    - Introducing tech activities for students
    - Ansbach University - touring possibility as a field trip
    - Weather station
    - Earth Day locally for K-2
